4 Seat Round Table

With this style table the seats and table top are ground and polished to expose the natural multi-coloured aggregate in the concrete. The table and seat edges along with the base come in an exposed aggregate finish. The colours offered have been selected to compliment the colour in the stone and produce a beautiful natural finish combination that is very durable and allows most scratches to be almost unnoticed. The table is coated in a high gloss industrial quality clear coating. A beautiful addition to any patio or outdoor area.
